PPC-2025

5th Global Conference on POLYMERS, PLASTICS AND COMPOSITES

June 25 - 26, 2025 at Prague, Czech Republic (Hybrid Event)

Invitation

Innovinc International welcomes you to attend the 5th GLOBAL CONFERENCE ON POLYMERS, PLASTICS AND COMPOSITES (PPC-2025) during June 25 - 26, 2025 at Prague, Czech Republic (Hybrid Event)

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of sustainable energy and development.

PPC-2025 anticipates more than 120 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. This is an excellent opportunity for the delegates to exchange new ideas and application experiences to establish business or research relations and to find global partners for future collaboration.

Participants from the top international academic, government and private industry labs of different disciplines participate in PPC-2025 to identify new technology trends, development tools, product opportunities, R&D collaborations, and commercialization partners. It is an excellent event for students to meet and discuss with lead researchers. The conference provides an unprecedented opportunity to discover innovation in the area of Polymers. It is among the most important events in terms of international regulatory policies and it is open to the participation of private companies. We look forward to welcoming you to Prague, Czech Republic.

Sincerely, Matthew Smithson PPC-2025 Conference chair

About us

Innovinc International Conferences are powered with knowledge, experience and amazing people and has managed to become one of the leading B2B event organizers. By gathering expert speakers and leading professionals, providing them with strategic knowledge and growth opportunities. Our goal is to always to focusing on innovative trends, covering the most up-to-date topics and working with top industry minds to prepare and execute the high-quality premier events. Our mission is engaged in organizing the conferences, publishing the high-quality conference proceedings, as well as providing services to scientists and young researchers on recent research updates in all fields.

CONFERENCE HIGHLIGHTS

- Polymer synthesis and characterization
- Polymer physics: structure, properties, and processing
- Polymer Emulsions, Surfaces and Interfaces
- Functional Polymers and materials
- Polymeric Composites, Nano composites and Hybrid materials
- Polymer engineering and processing
- Polymers in Medicine, Biology and personal care
- Polymers and the environment
- Biodegradable Polymers and Recycling Strategies
- Rheology and Rheometry
- Grand Challenges in Polymer Chemistry
- Reinforced Plastics and Composites
- Ocean Plastics
- Biomedical and Biomimetic Composites
- Carbon, ceramic and metal Matrix composites
- Fibers, Matrices and Interfaces
- Multi-functional Composites
- Recycling of Composites and Sustainability
- Applications of Composites

IMPORTANT DATES

Abstract Submission starts on: Registration opens:

August 01st, 2024 August 05th, 2024

WHY YOU SHOULD ATTEND

- To Meet renowned speakers, world's leading CEO's, Directors of polymers, assistant professors of polymers
- To know about the ongoing research projects and innovations in polymers
- Chance to collaborate research organizations with industries
- To share the research ideas and implement them
- New contacts to enhance the business opportunities
- Build relationships of influence with key people in the field
- Generate brand awareness and sales leads qualified by meaningful conversation
- Deepen your understanding of the field and how best to engage with it
- Engage with high profile international and national speakers
- Connect with potential partners and commercial allies
- Promote and showcase the new technology, the new products of your company, and/or the service your industry may offer to a broad international audience.

CONFERENCE VENUE:

Prague, Czech Republic Website URL: https://polymers-plastics.org/venue

PRAGUE, CZECH REPUBLIC

Prague is the capital and largest city of the Czech Republic and the historical capital of Bohemia. Situated on the VItava river, Prague is home to about 1.4 million people. The city has a temperate oceanic climate, with relatively warm summers and chilly winters. Prague is a political, cultural, and economic hub of Central Europe, with a rich history and Romanesque, Gothic, Renaissance and Baroque architectures. It was the capital of the Kingdom of Bohemia and residence of several Holy Roman Emperors, most notably Charles IV (r. 1346–1378) and Rudolf II (r. 1575–1611). It was an important city to the Habsburg monarchy and Austria-Hungary. The city played major roles in the Bohemian and the Protestant Reformations, the Thirty Years War and in 20th-century history as the capital of Czechoslovakia between the World Wars and the post-war Communist era. Prague is home to a number of well-known cultural attractions, many of which survived the violence and destruction of 20th-century Europe. Main attractions include Prague Castle, Charles Bridge, Old Town Square with the Prague astronomical clock, the Jewish Quarter, Petrin hill and Vysehrad. Since 1992, the historic center of Prague has been included in the UNESCO list of World Heritage Sites. The city has more than ten major museums, along with numerous theatres, galleries, cinemas, and other historical exhibits. An extensive modern public transportation system connects the city. It is home to a wide range of public and private schools, including Charles University in Prague, the oldest university in Central Europe. Prague is classified as an "Alpha-" global city according to GaWC studies. In 2019, the city was ranked as 69th most livable city in the world by Mercer. In the same year, the PICSA Index ranked the city as 13th most livable city in the world. Its rich history makes it a popular tourist destination and as of 2017, the city receives more than 8.5 million international visitors annually. In 2017, Prague was listed as the fifth most visited European city after London, Paris, Rome, and Istanbul.
